Employee Pension Plans

The goal of these news releases is to keep you up to date on the most recent legislative changes governing pension plans and various aspects of the way in which your plan works. This initiative is part of Assumption Life's information and communications program for employers, members of the retirement committee, and employees enrolled in the pension plan.

In this issue, you will find three charts. The first one indicates the prescribed limits for the various registered pension plans (RPP),

being the Defined Benefit Plans, the Defined Contribution or Money Purchase Plans, the Deferred Profit Sharing Plans (DPSP) and the Registered Retirement Savings Plans (RRSP). The second chart summarizes the Canada and Quebec Pension Plan contributions and benefits. Finally, the third chart indicates the maximum benefits payable under the Old Age Security Program.

We encourage you to distribute copies of this information to your employees.
